

July 18, 1940

Mr. Robert Marchant,
Water Commissioner,
Ioka, Utah

Dear Sir:

REL: SAND WASH DISTRIBUTION.

On June 11, 1940, I sent you an abstract of all of the Applications in good standing on Sand wash as shown by the records of this office for your use in distributing the waters of this stream. I recently received the decree of Sand wash and find that this document grants priorities very different to those acquired by reason of the respective Applications. It will therefore, be necessary that you distribute the water of this stream in the following order of priorities with the quantities, acreage and season set opposite each

	<u>Amount</u>	<u>Acreage</u>	<u>Season</u>
1 - Ira B. Cannon and Fred Case	1 1/8 sec. ft.	67.26	Jan. 1 to Dec. 31
✓ 2 - Sand Wash Irr. Co.	7 " "	1192	Mar. 15 to Dec. 1
✓ 3 - Dry Gulch Irr. Co.	10 " "	2240	Apr. 1 to Oct. 31
✓ 4 - Nathaniel J. Mitchell	0.78 " "	54.9	Mar. 15 to Oct. 31
✓ 5 - George Potts	0.50 " "	60.	Apr. 1 to Oct. 31
6 - Oscar Nelson	0.60 " "	90.9	Mar. 15 to Oct. 15

Should you have occasion to need the points of diversion or places of use, you will be governed by the information given by the abstract.

Yours very truly,

T. H. Humpherys,
STATE ENGINEER.
